## Deliveries Marked Early

The Deliveries Marked Early report is available in the Group reporting portal.

The report options are standard for group reporting, however there are 2 added fields.

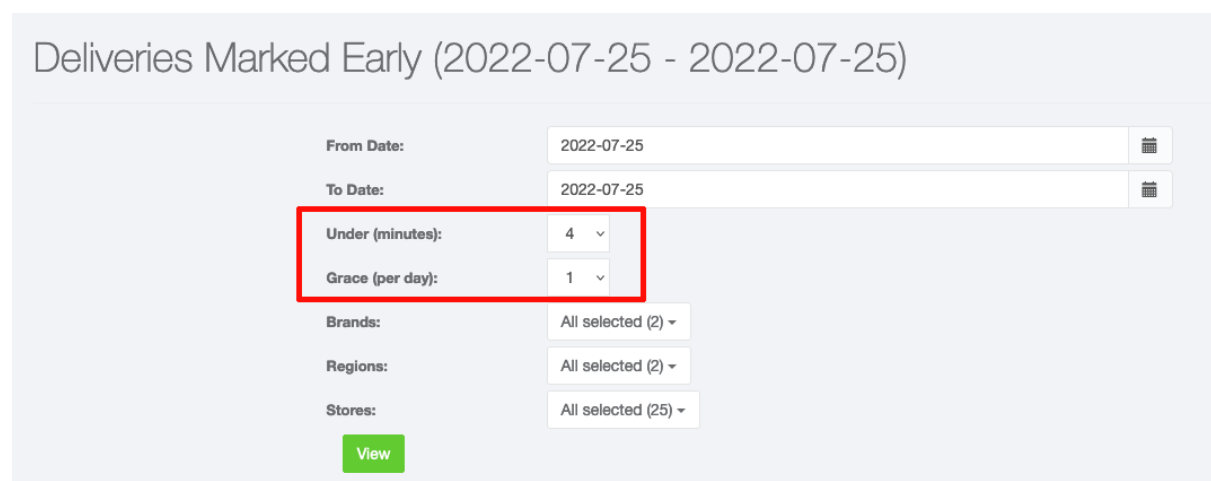

### Under (minutes)

This field allows the user to filter by deliveries marked delivered under a selected number of minutes. Default 4 minutes.

### Grace (per day)

In an effort to remove outlier deliveries, there is a grace field which allows the user to ignore a specified number of deliveries per day. Default 1 per day.

### Report Options

The screenshot shows the 'Deliveries Marked Early (2022-07-25 - 2022-07-25)' report configuration page. It features several input fields for filtering data. The 'From Date' and 'To Date' fields are both set to '2022-07-25'. Below these, the 'Under (minutes)' field is set to '4' and the 'Grace (per day)' field is set to '1'. These two fields are highlighted with a red rectangular box. Further down, there are three more fields: 'Brands' set to 'All selected (2)', 'Regions' set to 'All selected (2)', and 'Stores' set to 'All selected (25)'. At the bottom left of the form is a green 'View' button.

Once the report has loaded 4 columns are displayed
